NFAC

MEMORANDUM FOR:

[Redacted]
Chairman, NFAC Management
Advisory Group

SUBJECT : Responses to NFAC Management Advisory Group's
Recommendations to the Director

1. I am pleased to inform you that in response to your 15 March recommendation to the Director regarding emergency after-hours medical treatment, the Director has approved of the following alternative suggested by DDA:

A list of state-certified "paramedics" who agree to volunteer their services to assist fellow employees requiring emergency medical attention after normal working hours will be developed. OMS will verify that their certifications are current and valid and will provide the list to the Office of Security and the Operations Center. These offices will then contact a paramedic in emergency cases requiring assistance.

2. The DDA also noted that this service could be upgraded at some later date if conditions warrant a more extensive program.

3. Perhaps you would want to consider writing this item up for the new MAG Newsletter.

4. I would also like to call your attention to paragraph 1 b of the attached ORPA notice as a response to your recommendation that space be provided where analysts could work on long-range research projects away from the interruptions of the office.
